### **PARISH PICNIC THIS SUN. 15 AUGUST `12 NOON RECTORY**

Please do not forget our parish picnic this Sunday, if you signed up for it! Please bring a lawn chair if you would like, and enjoy the delicious food and the company of your fellow-parishioners. It sounds as if it is going to be perfect picnic weather, besides!

### **PILGRIMAGE TO AURIESVILLE & FONDA**

Forty-three parishioners made the journey to the Shrines of Our Lady of the Martyrs (Auriesville) and St. Kateri Tekakwitha (Fonda) on Thursday. A traditional Latin Mass was offered in the Colosseum Church, with a seminarian for the Diocese of Albany providing beautiful Latin chant during the Mass. Interestingly, there were posters around the church showing that the Diocese of Albany has 48 seminarians at present. May God grant them perseverance.

### **TRAINING FOR ALTAR SERVERS: TUE. 6-6:45PM CHURCH**

### **PARISH "COUNSEL" MEETING: THU. 26 AUGUST 7 PM RECTORY**

Our parish "counsel" meetings are open meetings where we discuss and make plans for the catechetical, apostolic and spiritual works of the parish. Last year we were prevented from having these meetings of course, so we look forward to resuming and planning for the coming year. Please join us with your ideas, input and recommends.

### **A SCOLA FOR LATIN MASS FUNERALS**

I have been in contact with a young man who would be willing to teach a group of people the proper melodies for the Requiem Mass (Latin funeral Mass). If you would like to learn these chants, please put your name on the list on the bulletin board, and if there is enough interest, we will move ahead with scheduling some rehearsals.

### **New Student Enrollment**

Now registering for the fall semester. Holy Cross Academy is an independent junior-senior high school teaching in the Catholic tradition. The school is located at 4020 Barrington Rd., Oneida. ## THE TROUBLE WITH DR. ANTHONY FAUCI

How often have we heard “trust the science”, when discussing the COVID-19 dictates of our government? It seems that even in his state of confusion, Biden can tell America that his COVID policy is based on “science not politics.” But one of his advisors, Dr. Anthony Fauci, is not only very political, but also controversial. So, who is Anthony Fauci?

He is an American physician-scientist and immunologist who serves as the Director of the US National Institute of Allergy and Infectious Diseases and the chief medical advisor to the president.

We do not see Fauci described as a political operative, yet his actions suggest otherwise. Fauci was proud to announce to the World Health Organization's executive board that Biden will soon revoke the Mexico City Policy “as part of his broader commitment to protect women's health and advance gender equality at home and around the world.”

We have also noted that, over the years, Fauci has been associated with the use of fetal cells in AIDS research as well as the current controversy involving his agency's taxpayer-funded research using baby body parts. As usual, the pro-life people who pointed out the flaws in Fauci's statements were dismissed as unreliable, but the facts speak for themselves.

Despite his sketchy history, Fauci was invited to the Vatican to talk about the coronavirus and vaccines, having been joined by the officials from the Pfizer and Moderna pharmaceutical companies. The theme of the conference was “Exploring the Mind, Body & Soul...

How innovation and Novel Delivery Systems Improve Human Health.” Yet speakers included secular for-profit corporate executives whose bottom line is financial success, which appears to be far-removed from spiritual food for the mind or soul.

Steven Mosher, a well-respected expert on China and its tactics, exposed Fauci and the potentially dangerous gain of function scandal in 2012, saying that Fauci was advocating it. So, what did we do? We taught Chinese scientists how to carry out gain of function research in our own labs at Galveston and at the U. of N. Carolina, that's Fauci-funded research. And then, to make matters worse, we then sent money to China.

One most interesting point for us is that in 2020, Fauci advised Catholics not to receive the Holy Eucharist, and said he was suggesting this “as a Catholic”.

But in a 2003 interview with Science Magazine, Fauci said, “Broadly and generically, I am not a regular church-attender. I have evolved into less a Roman Catholic person to someone who tries to keep a degree of spirituality about them. I look upon myself as a humanist.

I have faith in the goodness of mankind.” In 2021, the American Humanist Organization awarded Fauci their Humanist of the Year award.
