11 AM For: Gladys Zimmerman+  
Req: St. Joseph's Society

**RELIGIOUS INSTRUCTION: TUE. 26 OCT.**

**Jr. High School 7-7:45 PM Rectory**

**High School Students & Adults 8-8:45 PM Rectory**

This semester's class is devoted to the Creation account in the Book of Genesis, and the reasons for our belief in a divinely created universe, and human race. We are using the very well-done series, "Foundations Restored" to cover the topics of evolution and naturalism.

**Elementary Grades: Thu. 28 Oct. See bulletin board for class times.**

**OUR LIVESTREAM MASS is now at 9:30 AM Sunday**

Now that our wonderful Choir is singing the Holy Mass, we would like our homebound or others who enjoy watching our Mass to hear them. They add so much richness to the Holy Sacrifice, and uplift the heart to God. The Mass can be viewed on our webpage or on YouTube.

**NEW MEMBERS OF OUR LADY'S SODALITY INDUCTED TODAY**

At the 9:30 AM Mass this Sunday, four young ladies will be inducted into the Sodality of Our Lady, taking the Blessed Mother as their role model for Christian womanhood. God bless them and Our Lady love them!

**ALL SAINTS' PARTY FOR GRAMMAR SCHOOL KIDS**

This Friday, 29 Oct. at 4 PM at the Rectory. Have your child dress as his/her favorite Saint. Please sign your child up on the list on the bulletin board.

**WALK-A-THON WALKERS**

Please collect and turn in any of your sponsors' donations to the March for Life Bus by next weekend, 30-31 Oct.

**THANK YOU TO ALL WHO PRAYED THE ROSARY AT P P**

God will certainly be pleased with your devotion, your love for His little infants and your zeal for the Right to Life. May all our prayers to His most Holy Mother soon convert those hearts and minds that do not realize the true horror and evil of abortion. Now, it is documented that the fetal tissue that was used to create the HEK293 cell line, used in the testing of the vaccines for COVID-19, was taken from a living infant girl, dissected in the Netherlands between 1972-73. (The Center for Bioethical Reform UK, by Christian Hacking, "What the HEK?", 2/9/21): "The kidney in question was dissected from a healthy Dutch baby girl of unknown origin by the team at the Leiden University in the Netherlands in 1972...the baby was probably killed so as to secure functioning kidney cells. The man in charge of the research was named Alex Jan Van der Eb, and is still alive and based in Holland, who testified before the FDA in 2001, that the "fetus" was absolutely normal. "In order for the organs to be at optimal viability, the child needs to be dissected and organs extracted within 5 minutes of delivery." Hacking states.

## COULD THIS BE THE MEANING OF WHAT WE ARE GOING THROUGH?

I frequently point out that we are literally living through the events of the Book of the Apocalypse. This summer, Ann Barnhardt pointed out a whopper of fulfilled prophecy. In the following verses, it is explained to us that Babylon the Great, whichever world power this may be (“cough”, the U.S.), is responsible for deceiving the world with its drugs. In speaking about Babylon, we read:

*“And the light of a candle shall shine no more in thee; and the voice of the bridegroom and of the bride shall be heard no more at all in thee: for thy merchants were the great men of the earth; for by the **PHARMIKEIA** were all men deceived.”* (Rev. 18:23).

Sounds like “Babylon” will have a fierce reckoning coming to it, whomever they are, (“cough”, the U.S.). As you can see, this world power spoken of in the Apocalypse is guilty of lying to the world and peddling pharmikeia to everyone. And what is pharmikeia, kids? Pharmaceuticals. Drugs, You know, things like pills, vaccines and whatnot.

And yes, while your current bibles are stating that “Babylon” deceives the nations through sorcery, it is the original Greek that uses the word “pharmikeia”, which means drugs, medicines, etc.

It should be obvious to everyone who reads Scripture that the United States-as St. Hildegard calls us, “the great nation in the ocean that is inhabited by people of different tribes and descent”-that we, in fact, match the people of Babylon the Great. The fact that it is our empire that deceives the world with pharmakeia and other evil things should be unquestionable.

“The world today has 6.8 billion people. That's headed up to about 9 billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by, perhaps 10 or 15%.” Bill Gates, 2010 TED talk.

“The benefits of vaccines are there in terms of reducing sickness, reducing population growth.” Bill Gates to CNN Chief Medical correspondent Dr. Sanjay Gupta, 2011.

“We're all 5 billion of us on this little earth swimming around in space, and there's too many of us. If we had a much smaller population..we could cut back to 250 million-350million people.” Ted Turner, 2009 interview Audubon Magazine.”

“There is a single theme behind all our work-we must reduce population levels. Either governments to it our way, through nice clean methods, or they will get the kinds of mess we have in El Salvador, or in Iran, or in Beirut. Population is a political problem.

Once population is out of control, it requires authoritarian government, even fascism, to reduce it.” Thomas Ferguson, Dept. State
