YOUR ACTION IS NEEDED

Two bills have been making their way to the NYS legislature that would allow any NYS resident over the age of 18 to request lethal drugs to end their life if they have been diagnosed with a terminal illness. The bills would require that the patient make two requests to their physician for the drugs: one orally and another one in writing. The bills are A4321 and S6471.

Please go to lsn@LifeSiteNews.com and sign the petition that would let our legislators know that you are opposed to this advancement of the culture of death. Nine states and the District of Columbia have already legalized assisted-suicide. "Catholic" Andrew Cuomo would sign this legislation should it pass the Legislature. God have mercy on us!

THE MOST IMPORTANT PERSON ON
IS A MOTHER

The most important person on earth is a mother. She cannot claim the honor of having built Notre Dame cathedral. She need not. She has built something more magnificent than any cathedral—a dwelling for the immortal soul, the tiny perfection of her baby's body.... The angels have not been blessed with such a grace.

They cannot share in God's creative miracle to bring new saints to heaven. Only a mother can. Mothers are closer to God the Creator than any other creature;

God joins forces with mothers in performing the act of creation.... What on God's good earth is more glorious than this: to be a Mother?

(Joseph Cardinal Mindszenty, Prince Primate and Archbishop of Esztergom, Hungary from 1945-1973, was the singular opponent of fascism and communism in his native land. After the Soviet invasion of Hungary in 1956, he took refuge in the US Embassy, and remained there for 15 years. Pope Paul VI shamelessly compromised with the communist regime to enable Mindszenty to leave the country. He is a candidate for canonization, and his mortal remains once again rest in his native land, in Esztergom.)
