ARCHBISHOP VIGANO: ABORTION AND THE NEW WORLD ORDER

You can go to prison because of abortion: prison is the penalty imposed in some nations for those who stop in silent prayer in front of a clinic where children are killed. But you won't go to jail if you kill an innocent creature.

You can be discriminated against because of abortion: discrimination is the social stigma placed on those who are concerned about the life of a child killed in the womb, which is considered a "clump of cells" until the moment it is born, and for some murderers in our governments is still considered such even after being born.

They do not call it abortion: they call it "reproductive health", "terminated pregnancy". It is the obligation imposed political correctness with its Orwellian Newspeak. And those who conceal this horrible crime against innocent lives behind an aseptic expression are also in favor of mutilating people-also pre-pubertal children-to make them look like what they are not by means of amputations and destructive treatments: they call it "gender transition". Those who are in favor of abortion are also in favor of killing the sick, the elderly, the demented, the disabled and anyone, at any age that the State or the individual deems them unworthy of living: it is not called legal murder, but rather "euthanasia", "accompaniment on their journey"...

A person may be found to be unworthy of living because they are poor, because they are old, because they are not wanted by those who conceived them: but if people are massacred or horrendous crimes are committed, the use of capital punishment against such criminals is considered barbaric...

The reason for this hatred for the lives of others by the elite is not the result of a utilitarian mentality; the "throwaway culture" evoked by "someone" is not due to the Triumph of Death, which has been defeated forever by the Lord of Life. *It is rather caused by the satanic delirium of wanting to take the place of God, after having denied and betrayed Him.* This has been openly confessed by one of the ideologues of globalist thought, Yuval Noah Harari: Jewish, homosexual, "married" to a man, vegan, a theorist of transhuman and Luciferian religion that erases God from the human horizon and allows the tyrants of the New World Order to take His place...

Our Nations, once Christian, have now apostacized from the Faith by which our fathers built Christian Civilization on the ruins of paganism and idolatry. It is only thanks to faith in Christ that peoples have stopped killing their children through abortion, just as they once sacrificed them on their altars to propitiate demons. It is only thanks to our holy religion that mothers have had as their model the Blessed Virgin, the Mother of God and our Mother: *Mater misericordiae, Mater divinae gratiae, Mater purissima, castissima, inviolata, intemerata, amabilis, admirabilis.*
