STOPP TELLS CONGRESS: DEFUND PLANNED PARENTHOOD

It is that time of year when Congress is appropriating money, and Planned Parenthood stands licking its bloody chops demanding a huge handout to carry on its dirty business of abortion and sexual license.

In September of last year, Planned Parenthood of America released its long overdue annual report, showing that in 2020-21, it banked \$633.4 million-over &1.7 million per day-from government sources. That's a full 37 percent of the abortion giant's annual income for that fiscal year. At year's end, PPFA recorded \$133.7 million in profits (income over expense). Along the path to its profit, Planned Parenthood boasts that it ended the lives of 383,460 precious babies. STOPP is reaching out to members of Congress and encourages all people of good will to do the same. You can find your representatives' contact info at [congress.gov/members](https://www.congress.gov/members). Our legislators need to hear a loud and clear message from all of us today: NO MORE TAXPAYER MONEY FOR PLANNED PARENTHOOD! PERIOD! There should be no contingencies and no exceptions. Planned Parenthood is admittedly a systematical and racist organization founded by eugenicist Margaret Sanger.

Analyses of its financial reports and locations reveal that it is an organization that is not here to help the poor, as it likes to say, but to eliminate the children of the poor.

Current bills that pending to defund Planned Parenthood-H.R. 371 and H.R. 128-would restrict its funding by government recoupment of money PP receives during the fiscal year if it commits abortions. However, there are exceptions written into the bills for abortions under some circumstances. Also, money budgeted for women's health-care but withheld from Planned Parenthood is to be doled out to community health centers, a large percentage of which offer many kinds of dangerous, abortifacient contraception. Some offer ella, which according to the Alliance Pregnancy website, is a "chemical cousin to the abortion pill Mifeprex" and can damage the tiny embryo's attachment to the uterus, which causes the baby to die. Many offer IUDs, which can disrupt an existing pregnancy, resulting in abortion.

Let your congressional representatives know that Planned Parenthood must be defunded. Period! Planned Parenthood's business model is the epitome of evil and should not be taxpayer funded, ever! Nor should taxpayer money pay for deadly birth control from any provider!
