PRAY THE HOLY ROSARY WITH US AT PLANNED PARENTHOOD MON. 15 MAY 11 AM

The juggernaut of murder of the innocent presses ever forward in the Empire state under the merciless commandante Hochul. We must give Our Lady the assistance we can to help her crush the head of the demon, by praying her Holy Rosary. Please join us at the killing center, 1424 Genesee St., Utica.

SIGN UP FOR OUR PARISH DINNER: THU. 8 JUNE 6 PM AT THEODORE'S IN CANASTOTA

On the bulletin board please find the sign-up list for this year's dinner.

PLEASE LIST EACH PERSON WHO WILL ATTEND ON A SEPARATE LINE.

Our speaker this year will be Sheila Austin, the founder and director of the amazing Emmaus Ministry in Syracuse, which serves the homeless and needy with hot meals, dental care and other vital services.

Because our dinner this year is a celebration for having endured the repression of our God-given rights by our government and ecclesiastical officials, there will be no charge for this year's dinner. However, we will have to limit the number of attendees to 250, so: First come, first served. After the 250 mark is reached, there will be no more seats available. Naturally, this dinner is for parishioners only. God bless you.

THE TRANSGENDER MOVEMENT

Like every other writer who reports on the transgender movement's ongoing revolution, I am regularly accused of being “obsessed” with a movement that “isn't hurting anyone”.

As I have pointed out before, this is a key gaslighting tactic utilized by the LGBT movement. They attempt to transform every aspect of society, implement compelled speech (“preferred pronouns”); insist that their ideology be taught in state schools; advocate for laws that would see children taken away from “non-affirming” parents; demand that their flags be flown from public flagpoles; and call for sex change surgeries for children-and claim that we are somehow the ones causing all the fuss for responding to these things.

But because this accusation is a common one-even among “common sense” conservatives who see so-called “culture war issues” as beneath them-it is worth responding to again. Let me highlight my point by sharing just a few recent news stories-there are so many that it is impossible to cover them all individually. But this will give you a sense of how relentless the transgender movement is pushing to redefine society, and how deceitful it is to accuse those of us writing about it of being paranoid for consistently pointing that out.

Dylan Mulvaney, the “transgender” influencer who recently destroyed the Bud Light brand and interviewed (President) Joe Biden on trans issues, stated that he believes it should be illegal for people to identify him as a man. If you think that this isn't a real threat, consider the fact that men and women in the United Kingdom have been arrested for “misgendering”, jailed and fined.

Speaking of Mulvaney, a “transgender” state lawmaker in Minnesota recently introduced a measure that would excise language from the State's Human Rights Act that explicitly excludes pedophiles from not being a protected class based on “sexual orientation”.....

Project Veritas has recently released an undercover investigation exposing how that medical gender industry rushes sex changes for children, with one official stating: “We don't care if you see a licensed therapist or not...we don't require that at all. We brought in our own therapists to write up our letters to rubber stamp our surgeries...We do not provided the authorities any of our records.” These people should be in prison.

Why do I write about these things? In order to assure people that they are not insane. Things are changing, and at breakneck speed...

Society is being transformed around you, but you are accused of bigotry for noticing and asking questions, but it is happening, and we need to speak up.
